

10 Spellings:

Experience, extreme, experiment, complete, contemplate, completion, ordinary, accidentally, rhythm, rhythmic.

Year 4

7 spellings:

Wanted, went, want, work, worked, wait, waited.

Dear Parents,

As you can see from the enclosed pictures, the children had lots of fun being creative in the woods on Thursday. They sat in the woods listening to nature and seeing if they noticed anything about the woods that they don't usually when playing. The children's responses were great and ranged from being able to hear bird song, to noticing how beautiful the sun was breaking through the gaps in the trees. After this, the children were making clay animals and playing in the stream.

In maths this week, the children were recognising different amounts of money and ordering them in different ways. They also looked at the value of each digit in an amount, whilst finding different ways of making the same amount.

The children's fact files in English were great and I was so pleased to see them thinking about how to structure their writing into descriptive paragraphs. I learnt lots of interesting facts about a variety of animals.

In Geography this week, the children were looking at the physical features of landscapes in Italy. They looked at the Alps and Apennines in more detail.

In PE, the children are doing athletics and this week they were learning how to complete a standing long jump. Each time they tried to beat their original distance.
