

Year 5 Newsletter

26th November 2021

Dear Parents

This week in maths, the children have completed reasoning tasks related to multiplying and dividing by 10, 100 and 1000; they have used multiples of 10, 100 and 1000 to simplify multiplication and division calculations, and they have practised the written method for short multiplication. In English, they wrote a conversation between two characters in our book, ensuring they used correct speech punctuation and they wrote superb descriptions of a city scene. In history, we learnt about Tudor houses and in geography, the children found out about the continents and then had to locate countries in the world, to identify which continents they were in.

Teacher of the Week

Our teacher this week was Matthew S. He had created a very detailed PowerPoint about rollercoasters, which he presented clearly and confidently. The class enjoyed designing and naming their own rollercoasters.

Woodland Learning

The children absolutely love Woodland Learning and we had another great session today, which included cooking tortilla snowflakes over the fire. Many thanks to the parents who helped out - it is greatly appreciated.

Congratulations!

Congratulations to Sophia, who has been awarded a very well-deserved Blue Peter badge for her dedication to her piano playing.

Home Learning

This week, I have given the children a reading comprehension task to complete by next Friday. This week's maths has really highlighted those children who are still not confident with their times tables facts, so it is definitely something for us to continue to work on in school and at home.

Best wishes,

Louise Grinstead
