

# Year 6 news

Term 2, Week 3

A snapshot of our week

## Year 6 Act of Worship:

We are so proud of the children's performance on Wednesday afternoon. With a few children off, some of the lines had to be re-distributed - thank you to those who offered to take on more lines! We were also immensely proud of the children for remembering the words to the Respect Rap - it was a long song and lots of words to learn - again, a huge well one!

## English:

This week, the children devised their own animal, which they wrote a non-chronological report about. They were encouraged to use higher level vocabulary and punctuation. They were also asked to re-read and edit their own writing.

## Science:

In Science, we recapped vocabulary associated with this term's topic, Electricity - switch, battery/cell, motor, wire, buzzer, brighter and bulb. The children were then challenged to make a variety of different circuits. They thoroughly enjoyed this task and were problem-solving when things weren't going to plan.

## Anti-bullying week:

This week, Miss Dale delivered an assembly about this week's Anti-bullying week. The children then completed a task in the classroom about what it means to be a good friend.

## Children in Need:

It was great to see the children dress up for Children in Need. In the morning, the children took part in a Hula Hoop Challenge. They had great fun!
