

Computing:

Unit 2.5 – Effective Searching

Year 2

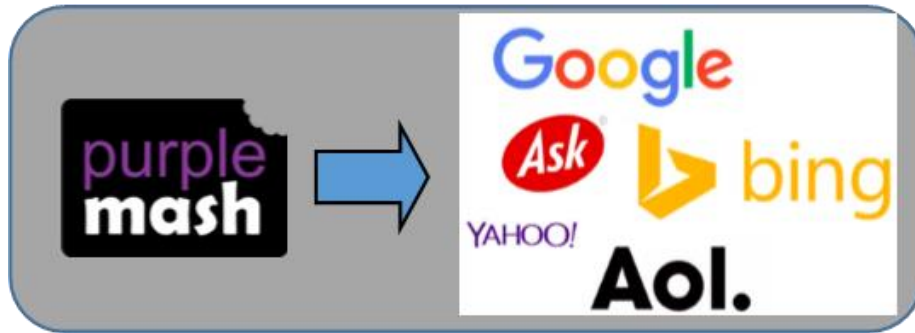

Key Learning

- To understand the terminology associated with searching.
- To gain a better understanding of searching on the Internet.
- To create a leaflet to help someone search for information on the Internet.

Key Vocabulary

Internet	A global computer network providing a variety of information and communication facilities, consisting of interconnected networks and computers.
Search	Look for information in a database or the World Wide Web using a search engine.
Search Engine	A program that searches for and identifies items on the World Wide Web.

Key Resources

Key Questions

How can I search the Internet?

The easiest way to search the Internet is using a search engine. The search engine crawls the Internet looking for answers to the search enquiry. Google is a popular search engine.
